

## **Public Safety Interoperable Communications Office**

### **ANNOUNCEMENT**

#### **Yavapai County TICP**

#### **Development Workshop**

**October 16, 2013 - 9:00 - 4:00 pm**

Description: Arizona's Public Safety Interoperable Communications (PSIC) Office will be assisting Yavapai County to develop a Tactical Interoperable Communications Plan (TICP) which documents interoperable communications governance structures, technology assets, and usage policies, and procedures.

First responders can use a TICP to clearly define the breadth and scope of interoperable assets available in Yavapai County, how those assets are shared and their use prioritized, and the steps individual agencies should follow to request, activate, use, and deactivate each asset.

The TICP will assist agencies within Yavapai County to:

- Identify all mobile/deployable equipment assets including related personnel resources (COMLs, COMTs, etc.)
- Document these assets
- Determine how best to group these assets for various types of deployments
- Establish the request, activation and deployment procedures for these groups of assets within the County
- Establish procedures for deployment (outside the County) for statewide use

Meeting: The TICP Workshops for this effort will be held at:

#### **Central Yavapai County Regional Training Academy**

9601 E Valley Rd  
Prescott Valley, AZ 86314

Who Should Attend: Communications and Operational representatives from Yavapai County agencies from all public safety/service disciplines. Agencies outside Yavapai County are also welcome to attend to learn about the TICP development process.

RSVP: Please RSVP no later than October 14, 2013 to online at <http://tinyurl.com/YavapaiTICP> or contact Karen Allen at [kallen@azpsic.gov](mailto:kallen@azpsic.gov) or 602.300.2780.
